MOHAMED ALI AHMED KHATTAB

Mechatronics Engineering Student | Electromechanical Works | MEP

Tanta, Gharbia, Egypt | 01064888996 | mohamedkhattab146200@gmail.com

PROFESSIONAL SUMMARY

Motivated third-year Mechatronics Engineering student with hands-on site experience in electromechanical works, including HVAC, Fire Fighting, pumps, electrical systems, and medium-voltage equipment. Experienced in site supervision, installation follow-up, coordination with suppliers, manufacturers, clients and consultants, technical documentation, inspections, approvals, and handover activities. Seeking to further develop technical, site execution, and project management skills in a professional engineering environment.

TECHNICAL SKILLS

MEP Systems: HVAC, Fire Fighting, Pumps, Electrical Systems, Medium Voltage Systems

Electrical: 11/22 kV systems, transformers, switchgear, VSDs, Soft Starters

Software: AutoCAD, Microsoft Word, Excel, PowerPoint, Basic Revit MEP (currently learning)

Site & Management: Site supervision, installation follow-up, team coordination, supplier/manufacturer coordination, technical reporting, inspections and handover

PROFESSIONAL EXPERIENCE

Site Engineer – Electromechanical Works | REDCON Construction | Future of Egypt Project – El Dabaa

Duration: 2023 – Feb 2026

- Supervised all electromechanical works at Lift Station No. 4.
- Oversaw installation and execution of HVAC and Fire Fighting systems.
- Supervised installation of 11 Torishima pumps.
- Coordinated with suppliers and manufacturers to ensure compliance with technical specifications.
- Prepared and reviewed invoices, inspections, and technical documentation.
- Coordinated with the client and consultant for IR/MIR approvals and handover activities.
- Monitored Medium Voltage systems (11/22 kV), transformers, and switchgear.
- Supervised installation and operation of VSDs and Soft Starters.

Site Engineer – Electromechanical Works | REDCON Construction | Future of Egypt Project – Lift Station No. 2

Duration: 2022 – 2023

- Supervised electromechanical works at the station.
- Oversaw installation and operation of 3 Torishima pumps.
- Worked on HVAC, Fire Fighting, and Electrical systems.
- Executed and followed up similar systems and activities to those at Lift Station No. 4.

Site Engineer – Electromechanical Works | Kafr Essam Wastewater Pumping Station Rehabilitation – Tanta

Duration: 2022 – 2023

- Supervised execution of electromechanical works.
- Ensured compliance with technical specifications and applicable standards.

EDUCATION

Undergraduate Student – 3rd Year, Mechatronics Engineering Department

Higher Institute of Engineering & Technology, El-Mahalla El-Kubra

ADDITIONAL INFORMATION

Date of Birth: 27 May 2004 | **Marital Status:** Single | **Military Status:** Exempt

Languages: Arabic – Native | English – Good
